SKILLS

Programming Languages: Java, Python, C++

Libraries & Frameworks: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, LangChain

Databases & Querying: MySQL

Core Concepts: OOPs, DBMS, Machine Learning, Data Analysis, Data Visualization

PROJECTS

InsightForge — AI-Powered RAG Document & Website Assistant — Python, LangChain, ChromaDB, Streamlit, RAG

- Developed a Retrieval-Augmented Generation (RAG) application that allows users to upload PDF documents or provide website URLs and ask questions about their content.
- Implemented document loading, text chunking, Mistral AI embeddings, and semantic retrieval using ChromaDB to provide relevant context for LLM-based responses.
- Integrated conversation history and query rewriting to improve retrieval for contextual follow-up questions, with an interactive Streamlit interface for real-time document-based Q&A.

Live Demo: <https://insightforge-sandip.streamlit.app>

GitHub: <https://github.com/Sandip-0/InsightForge-RAG>

Enterprise Commercial Credit Risk & Solvability Predictor — Python, XGBoost, Scikit-learn, Pandas, Streamlit

- Developed an end-to-end machine learning classification system to predict business credit risk and solvability using financial, operational, compliance, workforce, banking, and social-media features.
- Built and integrated an XGBoost classification model with preprocessing and feature-scaling pipelines for real-time prediction.
- Developed an interactive Streamlit dashboard featuring exploratory data analysis, feature-distribution visualizations, and real-time business risk assessment.
- Implemented model inference using serialized model, scaler, and feature artifacts, ensuring consistency between training and production predictions.
- Deployed the application on Streamlit Community Cloud for live demonstration and accessibility.

TRAINING

ElevanceSkill — Data Science Intern

- Selected for a **6-month Data Science Internship** focused on gaining hands-on experience in a real-time project environment.
- Working on assigned tasks and projects to develop practical experience in **Data Science and data-driven problem solving**.
- Gaining professional exposure through structured project work, task submissions, feedback, and continuous learning.

CERTIFICATES

- AI-Machine Learning Engineer Certificate Course — [NSDC Skill India](#)
- AI-Data Engineering Analyst — [NSDC Skill India](#)
- Agentic AI Certified Foundations Associate — [Oracle](#)
- Python for Data Science — ASD
- Programming in Modern C++ — [NPTEL, IIT](#)

ACHIEVEMENTS

- Completed the **60 Days of Coding Challenge** by GeeksforGeeks.
- Solved 300+ DSA problems across coding platforms.

EDUCATION

Swami Vivekananda University

Bachelor of Technology

Computer Science and Engineering.

CGPA: 8.00

Barrackpore, West Bengal

Aug' 23 - Present

Debra Harimati Saraswat Vidyamandir

Higher Secondary (Class XII)

Secondary (Class X)

Debra, West Bengal

Apr' 21 – Mar' 23

Apr' 20 – Mar' 21
